INTRODUCTION

People are introducing new ideas in the world of cryptocurrencies. The popularity of digital currencies is increasing very rapidly. In the era of great competition, Cxcoin has introduced a unique idea. The Cxcoin is presenting a platform for streamers to implement a cryptocurrency donation processor where many other cryptos and the native currency of CxCoin will be able to be donated.

CxCoin will strive to provide utility for the token in many ways such as the Cryptocurrency donation platform/Nft Marketplace/Cx Crash Game and much more. An addition to the utility we will create for the token we have also implemented a Buyback feature on the smart contract which is able to automatically buyback the Cx token and burn it.

ABOUT CXCOIN

Cxcoin is a community-based and community-driven token, guaranteeing complete transparency through every milestone of the project. CxCoin is building a platform to allow streamers and content creators a safe and easy way of receiving donations with various cryptocurrencies including the native CxCoin token. The project is founded by Paul Denino or also known as Ice Poseidon with the intention to provide a fast, secure and easy way for streamers to receive crypto donations and boost their overall revenue from their content. This being said, CxCoin aims to deliver other projects such as its own NFT Marketplace where all the generated proceedings will be used to buy back the token and be burned.

The CxCoin Crash game is another project which will be established under the CxCoin ecosystem which will provide the gambling experience with no house edge, the project will in turn generate fees in the network which will be used to buyback the token via its Smart contract.

The basic principles of the smart contract that CxCoin is run are:

Reflection: All holders will be able to receive 2% of the fees generated from the token just from holding the CxCoin or also known as auto staking

Automatic Buybacks: The CxCoin smart contract will receive 6% of the fees generated from the token to be used in Buybacks of the token, insuring a price stability to the token.

Marketing Wallet: 3% of all fees generated will be contributed to the Marketing wallet which in turn will be used to fund marketing campaigns in the Cryptocurrency market.

TRANSACTIONS TAX PERCENTAGES

Total Tax fee : 11%

Breakdown:

Static Rewards	2%
Marketing Wallet	3%
Auto Buyback Mechanism	6%

Wallet Addresses:

Token Smart Contract Address	0xd09092b1c9c495eb7e0a043927492cf2dee68a86
Marketing Wallet Address	0xa9d6162902850eaBec8B71fFC1Cd114e7B5Dc8f0

TOKENOMICS

Token Name:

CxCoin

Ticker:

Cx

Decimals:

9

Total Supply:

1,000,000,000,000,000 (1 Quatrillion)

Supply Model:

Deflationary

Chain:

Binance Smart Chain

Class:

Utility/Governance

Token Smart Contract Address:

0xd09092b1c9c495eb7e0a043927492cf2dee68a86

TOKEN DISTRIBUTION

Burner Wallet

10%

Presale Tokens

40%

Locked Liquidity Tokens

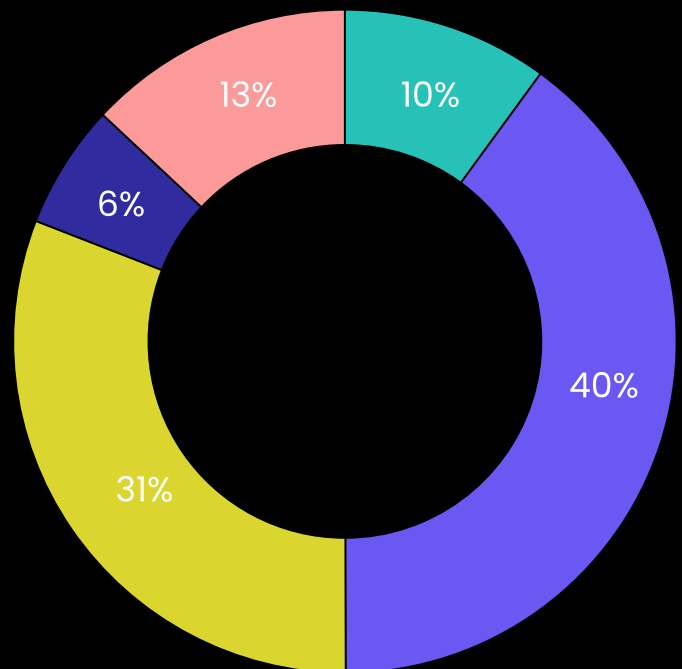

31%

Marketing Wallet

6%

Team (Locked and vested monthly)

13%

TOKEN SALE

Presale is on DxSale to allow contributors and investors to feel safe as the Liquidity will be locked with DxSale's smart contract.

Hard Cap:

2500 Bnb

Soft Cap:

1250 Bnb

Personal Max:

3.5 Bnb

Personal Min:

0.01 Bnb

AUDIT

TechRate was commissioned by Cxcoin to perform an audit of Cxcoin,s token smart contract. The link to the contract is given below:

[https://bscscan.com/
token/0xd09092b1c9c495eb7e0a043927492cf2dee68a86](https://bscscan.com/token/0xd09092b1c9c495eb7e0a043927492cf2dee68a86)

The purpose of the audit was to achieve the following

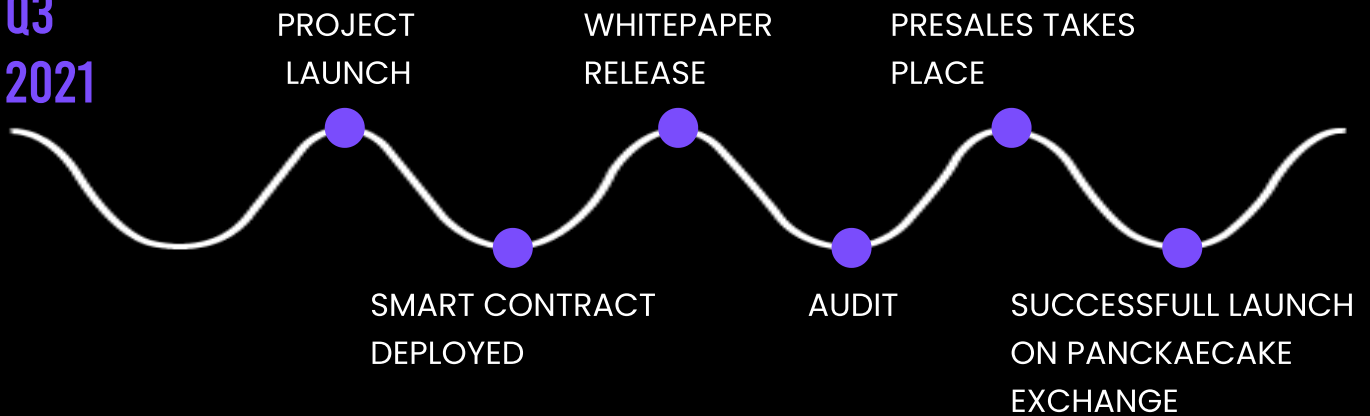

- Ensure that the smart contract functions as intended.
- Identify the potential security issue with the smart contract.
